

Polyken 781 PET/Silicone High Temperature Splicing Tape

Product Information Sheet

SKU/Product ID/Reference

781

Product Description

PET/Silicone High Temperature Splicing Tape

Features and Benefits

- Polyester Film Backing
 - Thin, low-profile film
 - Excellent tensile strength and durability
 - Blue for high visibility
- Silicone Adhesive
 - Outstanding adhesion to low-energy substrates
 - Excellent shear strength for improved splice bond
 - Performs well in extremely high temperatures
- Self Wound Construction
 - No release liner for ease of use and less waste

Regions Available

Global

Product Information

Adhesive Type	Silicone
Carrier / Support / Facestock	PET (Polyester) Film
Gauge / Mil	2.8 mil
Operating Temp Range	0 to 395 °F
Color(s)	Red Blue
Product Construction	Single-Coated Tape
